

# JURA IMPRESSA F50

## Technical overview

### JURA standards

Variable brewing unit, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.©)	■
Additional pre-ground coffee powder	■
Hot water function	■
Cappuccino frother	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.©)	■
Multi-level conical grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Integrated rinsing, cleaning and descaling programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

### Specific benefits

Powder recognition for additional ground coffee variety	■
Intelligent preheating	■

### Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Programmable coffee strength	5 Levels
4 levels	■
Coffee strength can be adjusted for each preparation	2 Levels
Programmable brewing temperature	3 Levels
2 levels	■
Plain text display	■
Rotary Switch	■

### Design and materials

Height-adjustable coffee spout	70 - 111 mm
White cup illumination	■
Amber cup illumination	■
Connector System©	■

### Accessories

Cup warmer	optional
Cool Control	optional
Professional Cappuccino Frother	■

### In figures

Water tank capacity	1.9 L
Coffee grounds container (servings)	approx. 16
Bean container with aroma cover	200 g
Cable length	approx. 1.1 m
Voltage	220-240 V AC
Power	1,450 W
Energy consumption	18 Wh
Energy consumption with E.S.M.©	approx. 5 Wh
Stand-by power	0 W
Weight	9.1 kg
Dimensions (W x H x D)	28 x 34.5 x 43.5 cm
Article number / color	13494 Platinum

## A timeless classic

IMPRESSA F50 – if this successful classic amongst JURA automatic speciality coffee machines was good before, it's now even better. Thanks to four new programmable preparation buttons and improved user guidance with the Rotary Switch, it's never been easier to create the perfect coffee. The Connector System<sup>©</sup> permits the use of cappuccino frothers. The new IMPRESSA F50 doesn't just grant your wishes for espresso and coffee, but also those for cappuccino and latte macchiato.

### Intuitive operation

Programme navigation is incredibly simple thanks to the high-quality, sophisticated user guidance concept embodied in the new generation of IMPRESSA F50 machines. The plain text display ensures simple communication with the user, who can navigate accurately through the programme with the help of the Rotary Switch.

### Eco-intelligence

Saving energy doesn't have to mean sacrificing enjoyment. Quite the contrary. In Energy Save Mode (E.S.M.<sup>©</sup>) the IMPRESSA F50 uses up to 40% less energy. When the machine is switched off, the patented JURA innovation, the 'Zero-Energy Switch', also stops active coffee preparations once they are complete, ejects the coffee grounds and moves the brewing unit back into the starting position. The switch then disconnects the machine entirely from the electrical mains.

### Play with the senses

An espresso without the perfect crema – simply unthinkable. The new amber cup illumination and the height-adjustable coffee spout make each coffee a perfectly presented enjoyment. The soft amber light casts a golden glow over the coffee and cup, while the smell of fresh coffee caresses the nose and bewitches the senses. You can't fail to be tempted.

### Connector System<sup>©</sup>

The Connector System<sup>©</sup> permits the use of various frothers. This includes the Professional Cappuccino Frother, which can be used to heat and frothmilk. There is also a special hot-water nozzle, which provides an even jet of water. The 2-stage frothing nozzle and Easy Cappuccin
