CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Integrated rinsing, cleaning and descaling program	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

Specific benefits

Latte macchiato at the touch of a button	■
Cappuccino at the touch of a button	■
Aroma Boost function	■
Intelligent preheating	■

Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Adjustable coffee strength	5 levels
Coffee strength can be adjusted for each preparation	■
Programmable brewing temperature	3 levels
Programmable tea water temperature	3 levels
Plain text display	■
Rotary Switch	■
Programmable Switch OFF time	■
Active bean monitoring	■
Monitored drip tray	■
Integrated cappuccino rinsing and cleaning program	■

Design and materials

Alu Frame Design© 3 mm front panel	■
Height-adjustable dual coffee spout	65 – 103 mm
Width-adjustable coffee spout	20 - 50 mm
Height-adjustable cappuccino spout	113 - 153 mm
White / amber cup illumination	■
Sound Design	■

Accessories

Cup Warmer	optional
Cool Control	optional
Stainless steel vacuum milk container	■

Specifications

Water tank capacity	2.80 L
Coffee grounds container (servings)	approx. 20
Bean container with aroma preservation	280 g
Cable length	app. 1.1 m
Voltage	230 V ~, 50/60 Hz
Power	1,350 W
Energy consumption	23 Wh
Energy consumption with E.S.M.®	16 Wh
Stand-by power	≤ 0.01W
Weight	9.4 kg
Dimensions (W x H x D)	31 x 37 x 43.5 cm
Model number / Alu	13489
Model number / Chrome	13491

IMPRESSA Z7

SWISS  MADE

High Quality enjoyment

This superlative, top-quality model makes the heart of even the most demanding coffee aficionado beat faster, and provides the thrilling experience of a full range of coffee enjoyment at the highest possible level. Variable, simple and individual. The cup illumination feature stylishly presents speciality coffees in rich amber and milk specialities in gleaming white.

153 mm – the new perfect size

For the first time ever, the cappuccino spout can be adjusted on a continuous scale by up to 153 mm to suit all standard latte macchiato glasses, a unique feature for automatic speciality coffee machines for domestic use. This perfects the quality of specialities made with milk, because it guarantees a wonderfully fine and airy milk foam.

Coffee quality

A further developed fluid system guarantees the best crema yet: fine, velvety, intense and aromatic. The intelligent pre-heating system ensures that every espresso and ristretto has the optimum temperature, even after longer breaks in preparation.

Eco-intelligence

Saving energy doesn't have to mean sacrificing enjoyment. Quite the contrary. In Energy Save Mode (E.S.M.©) the JURA IMPRESSA Z7 uses up to 40% less energy. The patented Zero-Energy Switch switches the machine to off mode after coffee preparation and the automatic switch-off rinse. Consuming less than 0.01 W, the standby energy is one hundred times lower than the value specified in the EU standard. The machine can be completely disconnected from the power supply using the power switch.

Design

The unmistakable design combines purest luxury, elegance and sophistication. The striking lines reflect the shape of the coffee bean. The high-quality materials used are produced with maximum precision and outstanding craftsmanship. Carefully finished solid aluminium is used for the front panel and coffee spout. The high quality of this premium product couldn't be reflected any better.
